THE WORLD CALENDAR

The "World Calendar" shown below is being advocated for Universal use by the World Calendar Association Inc., 630-5th Avenue, New York 20, N. Y.

In this Improved Calendar:

- Every year is the same.
- The quarters are equal: each quarter has exactly 91 days, 13 weeks or 3 months; the four quarters are identical in form.
- Each month has 26 week days, plus Sundays.
- Each year begins on Sunday, 1 January; each working year begins on Monday, 2 January.
- Each quarter begins on Sunday, ends on Saturday.
- The calendar is stabilized and made perpetual by ending the year with a 365th day following 30 December each year. This additional day is dated "W," which equals 31 December, and called World'sday, a year-end world holiday. Leapyear Day is similarly added at the end of the second quarter. It is likewise dated "W," which equals 31 June, and called Leapyear Day, another world holiday in leap years.

also looked up a few things in
the library.

Today I received from the Press
the photo furnished signature — pgs.
133-134. It looks very satisfactory.

Also Jennings advised me that
a correction sent in for p. 598
(vol. 1, chapter 9, Gylhadar should
be Gyrlhadar) was too late to be
fixed. Well, there could be more
glaring errors than that.

The first page proof of the Bibliography was sent down from Berkeley, arriving today. Looks pretty clean. It runs 141 printed pages; the original estimate was 130 pages. Not too bad a guess.

to have two copies of original material
like the index stored at two different
points, so there is no chance for loss.

Received 3 signatures of volume 2 from
Berkeley today.

Finished going over Jennings corrections
and deletions in the A-Z section and
returned it to Berkeley with my materials.
Also sent him the C-Z section by an

Started today cross-checking the index. Worked long and hard. Finished A-E inclusion. Found it very important. Increases the number of pertinent page references and improves accuracy. Many cross-references are improperly worded.

To do a good clean job, this should have been done before any part was sent to Berkeley.

THURSDAY, MARCH 22, 1956

82nd
Day

284 Days
to come

Arrived at the University Press
at 9¹⁵ and remained there until
4³⁰. Had a very busy, and constructive
day.

Most of the time was taken up in
going over the Index with Jennings.
Most of our differences were compromised.
The results are quite satisfactory to me.
We first went into generalities, then
through the index from A to Z. I made
many marginal notes and now face the
difficult and time consuming task of
incorporating all of our agreed changes into
the manuscript. He wanted the ms by
April 15, but I told him frankly that this
was probably impossible as I was faced
with other postponed matters (income-tax
among others) that could no longer be
postponed.

I was presented with the first bound
copy -- finished in every particular --
of Volume I, which made this a
red-letter day, for it produced a feeling
of actual accomplishment.

Had several brief conferences with
Mrs. Carroll. My inquiry about the
engraving for the bibliography came too

FRIDAY, MARCH 23, 1956

late, so it will be used as a tail piece. Too bad; I should have noticed this in the page proof.

Had lunch with Mrs. Carroll and Frueger.

Went to see Tova and Bob but they were out. Finally got them on the phone after I had dined alone at the Bow and Bells, Jack London Square, and they came down to the St. Depot, where we talked over their problems until train time.

Very tired tonight but feel that a lot was accomplished. All I need now is time.

SATURDAY, MARCH 24, 1956

84th
Day

282 Days
to come

Spent the day on the Index.
at Phil's for dinner.

Today I finished checking the
direct cross-references. But I
have learned since the index was
finished how important it is to
cross-check the same thought
or subject entered under different
key words. Often the pages cited
may be quite different. So this
is what I am working on now.
It's a slow process ~~and~~ and in
any case can never be entirely
complete.

SUNDAY, MARCH 25, 1956

~ 85th
Day

Palm Sunday

281 Days
to come

Worked hard all day and late into the evening on the Index, picking up the differing page references on the same subject but under different key words. Often these don't agree. This is a very time consuming job, but is very necessary, as properly done, it adds greatly to the completeness of the Index. For the whole day I got only from M to Q. (I had begun at M, as the prior letters had been partly done.

90th
Day

Good Friday

276 Days
to come

At the office this morning. Several long discussions of company affairs.

In the afternoon and late into the night I worked on the "rattle" entry in the index. This has required a fantastic amount of time to complete. The improvement has been very great -- probably at least 100% from the standpoint of the user, but if this were a fair sample and the same detailed methods were continued, the completion of the index would require a couple of months. I am much concerned with the situation.

Day

Twentieth Sunday after Trinity

78 Days

Hale Sparks, the University Explorer, spoke on KRX and other Pacific Coast Columbia stations about the rattles book. I thought it went very well.

Dr. F. A. Shannon and some young student whose name I didn't catch, called this morning. I got a bad ~~coughing~~ coughing spell and couldn't talk to them toward the last.

Worked hard today getting material ready for the library exhibit and made good progress. This involves a lot of work.

MONDAY, OCTOBER 15, 1956

~ 289th

exhausting job.

Smog committee meeting this morning 9-11 at the Civic Center. Then went to the office. Talked financial structures with Sherwin.

After lunch had an interview with Lew Seavey Tribune reporter with reference to the book. Also had pictures taken. This for Saturday Trib. Harold Keen called about a television program Thursday night. No definite decision yet. Talked with Miss Cary Head of the Public Library about the exhibit. All the material, manuscripts, galleys, etc. were sent to the library this afternoon. Robt Nichols of Time called with reference to the snake-dance pictures. Said Time would have an article in the Science Dept next week. Spent the evening packing.

FRIDAY, OCTOBER 19, 1956

✓ 293rd
Day

73 Days
to come

At the office in the morning
also called on Miss Head at the
library to talk over some features of
the exhibit.

Left at 12 for Los Angeles and
put up at the Aster Motel, having
arrived at about 3. Had missed
a telephone call from Berkeley.

In the evening went to a
performance of Mammiescant With
Donethy Kingston, Juss Björling, Quanaa,
Alway, Cuzi, et al. A fine performance
but badly disturbed for a while
by the late arrivals of the self
determined social elite, this being
the opening night

SATURDAY, OCTOBER 20, 1956

✓ 294th
Day

72 Days
to come

In Los Angeles.

Worked on the alphabetizing of the index cards of the separates. I had lately catalogued.

In the evening went to a performance of Simon Boccanegra, the first time I had ever heard this opera. The usual fantastic Verdi plot, very difficult to follow even with an adequate story outline. The music is very beautiful, it deserves to be heard more often. With Leonard Warren, Renata Tebaldi, Boris Christoff, Roberto Turrini, et al, including our local Christine Krooskes in a minute part.

SUNDAY, OCTOBER 21, 1956

✓ 295th
Day

Twenty First Sunday after Trinity

71 Days
to come

This morning we visited Dominic and Mickie in their new house in the Brentwood district.

Then attended a matinee performance of La Bohème. Enjoyed the old times, although Licia Albanese was not what she once was. Others included Jan Peerce, Giulio, Blankenburg, Italo Tajo, Mary Gray, etc.

Had loaded the car in the morning and got started southbound a few minutes after 6. Arrived a little before 9. The traffic although dense wasn't too difficult, except in the stretch between El Com and Serra. We were unfortunate enough to get caught in a procession behind a slow car with no chance to pass in the entire two-lane distance

MONDAY, OCTOBER 22, 1956

✓ 296th
Day

70 Days
to come

At the office this morning.
Letters this afternoon.

This was a red-letter day.
Received a complete and final
2 volume copy of Rattlesnakes, the
culmination of 11 years of work. A
wonderful feeling of accomplishment.

TUESDAY, OCTOBER 23, 1956

✓ 297th
Day

69 Days
to come

At the office for a short time this morning; also went to the library to check progress with the book exhibit with Miss Head. Started for Los Angeles about 11. Put up at the Astor Motel as usual.

In the evening went to a performance of Falstaff: Leonard Warren, Elizabeth Schwarzkopf; Guarnera, Schick, Campora, Roggero, Dominguez, Assadie, de Paula, Mosconi et al. Despite the superiority claimed by professional musicians and critics for Verdi's third period, this is certainly far less enjoyable by the plain opera goers than his middle period operas. The ensemble numbers are wonderful but still it is an opera one would not choose to see twice if others were available. The plot is against it, not because it's light but because it's silly.

Alas, Schwarzkopf, although still beautiful has put on weight.

WEDNESDAY, OCTOBER 24, 1956

✓ 298th
Day

United Nations Day

68 Days
to come

In Los Angeles. Hung around the motel all day.

In the evening went to a performance of Tosca. With Tebaldi, Richard Martell, Colzani, Chianovsky, Salangi, de Paolis et al. Tebaldi has a better voice than Dorothy Keeton, but is not so good or plausible an actress. Martell was good, but the others hardly up to past performances. Despite the melodrama Tosca has a plot that hangs together. One can easily see why these Puccini operas retain their popularity.

For some unknown reason a group in the audience booed the Conductor Curci on two occasions.

Heard today that the lack of books in San Diego, after last Sunday's publicity, led book dealers to substitute other books on inquiry from purchasers, a very objectionable procedure.

THURSDAY, OCTOBER 25, 1956

✓ 299th
Day

67 Days
to come

Got up at 5³⁰, packed and started for San Diego at 6¹⁵ arriving at 8³⁰. Unpacked and went to a Joleis Directors meeting from 9³⁰ until 10³⁰. Then home for lunch and a brief rest, after which went to the office and to the library. In the evening went to a very enjoyable presentation of Coze Fan Ballet with Schwarzkopf, Hell Ranten, Patricia Munsel, Richard Lewis, Guarraza Lorenzo Alvarez. A very enjoyable event, well being and entertainingly performed.

FRIDAY, OCTOBER 26, 1956

✓ 300th
Day

66 Days
to come

At the office this morning.
Discussed various matters with
Sherwood.

Mrs. Carroll phoned from
Berkeley this afternoon and said
my free copies and the zoo's had
been shipped and would arrive Monday
or Tuesday. Also the book dealer's
orders had been filled. I notified
the zoo and library. This corrects
a bad situation.

Spent the afternoon catching up
on letters and reading. Much
remains to be done.

TUESDAY, OCTOBER 30, 1956

304th
Day

62 Days
to come

Went to the office this morning, then to the Public Library to check the book exhibit, now finished.

A crate containing 50 copies of the book arrived by truck this morning. They were well packed. Started for Los Angeles with Gog at 11⁴⁵ and arrived at 2¹⁵ Hung around the Aster Motel for the rest of the afternoon.

In the evening went to a performance of Boris Godunoff. It was a good but not outstanding presentation. The symbolic scenery was not appropriate to an opera so dependent on pageantry. Boris Christoff, the lead, was not up to advance publicity. Others in the cast were Rosalind Nadell (Feodor), Jeannine Crader (Xenia), June Watkins (Nurse), Curzi (Schouisky), Cehanovsky, Moscone, Lewis, Oralia Dominguez (Marina), Hana Hatter (Rangone), Alvany, Lachona, Katherine Hilgenberg (Innkeeper) etc.

Spent the morning in the motel.
Called on Ed in the afternoon, sat
in the lobby of the Townhouse. Gave
him a copy of the book.

In the evening heard a
presentation of Francesca da Rimini.
Never had seen it before. Beautiful
orchestration (mostly too loud) but
on the whole an unsatisfactory
opera, to be seen only once.

Leyla Gencer (Turkish Soprano)
Martelli, Colzani, Curcio, and others.

All Saints' Day

60 Days
to come

Drove down from Los Angeles, starting at 9 and arriving a little before noon. Went to the office in the afternoon and to the library to check the exhibits.

Saw a copy of time with a review of the book in the "Science" section. On the whole a very satisfactory write-up, well suited to the clientele of the magazine.

In the evening went to Madame Butterfly at the Fox. On the whole a very satisfactory presentation. With Dorothy Kirsten, Giuseppe Campora, Margaret Rogers, Enrico Quilico, Assandri, Ligeti, Cehanevsky, et al. Dorothy was in good voice. The tenor Campora had a cold but still did very well. Quilico was one of the best sharpshooters I have heard.
